# 15 cm positioning accuracy at 2000-m depth
GIB-Net success after deployment of first NEMO tower

Key Features:
- High positioning accuracy
- No limitations to number of underwater tracked objects,
- Long duration operations,
- Light weight.

Beacon 3 position
Grid size: 2cm

Acoustic receivers

Acoustic TSSC

The folded tower - Orange spheres: optical sensors

**Dimensions :
480 x 95 mm**
